

BEN FIXTER

Redcar – 07497 327898 – benfixter1999@gmail.com – <https://portfolio-benfixters.vercel.app/>

Summary

Highly motivated and skilled software developer with over 2 years of experience building full stack applications. Passionate for creating innovative and user-friendly solutions while staying up to date with industry trends and latest technologies.

Experience

Aug/2023 – Present (Bulk Tainer Group), Software Developer, Hybrid

- Developed and deployed an ERP platform using Next.js, Tailwind CSS, and MySQL, featuring modules like Customer Portal, Organisation Chart, and Task System.
- Built an internal task management API using Node.js, streamlining team workflows and improving efficiency.
- Contributed to the development of a company-wide HR system using Laravel and Bootstrap.
- Implemented and maintained CI/CD pipelines with Azure, ensuring smooth and automated deployments.
- Gained experience in Linux to securely deploy applications while maintaining a secure environment.
- Successfully completed a Level 4 Software Developer Apprenticeship, enhancing technical and industry knowledge.

Nov/2021 – May/2022 (Project Escape) Website Developer, Hybrid

- Designed and developed modern mobile apps using React Native, including a location-based escape room finder that uses Google APIs to identify nearby rooms based on the user's location.
- Enhanced existing apps by improving UI/UX in Figma and implementing new features to boost user experience.
- Successfully integrated In-App Purchases via Firebase, enabling seamless transactions.
- Created fully responsive websites for the launches of Project Escape Digital and Putter Chaos using HTML, CSS, and JavaScript.
- Utilised Git for version control, ensuring smooth collaboration and code stability.

Skills

- Languages: JavaScript, TypeScript, C++, C#, Python, PHP, SQL
- Frontend: React, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3
- Backend: Node.js, ASP.NET Core, Laravel, MySQL, MSSQL, Firebase
- Tools: Git, Azure, GitHub, Linux, Docker, Figma
